## Head Work

It pays to work with the head as well as the hands. Plenty of people work hard enough with their hands all their lives, yet remain poor. It takes more than labor to win financial success, or even a competence for old age. The head must be taught to SAVE something from what the hands earn, be the saving ever so small. One Dollar per week saved for twenty years, with no interest added would amount to \$1040.00. Don't you know some people who have worked hard for twenty years, yet haven't saved the thousand? Begin now. Pinch out a little every week. Place it on deposit in our bank. We will take care of it for you. You will never regret having used both head and hands.
